## Wedding Testimonials

I want to commend you on basically everything from start to finish for our daughter's wedding, 2/18/17. Choosing you for our catering was an A1 smart decision. We enjoyed working with you while preparing for this day and our guests enjoyed the meal you provided. We received many, many compliments. The food was exceptional and really stood out; not your standard buffet meal. The service you and your staff provided for the reception was perfect; everything flowed effortlessly and seemed to be taken care of exactly when it was needed. Thank you for your service and please know that we would not hesitate to recommend Chef Dom's Catering.

Thank you so much!!! I do have to say that everything was absolutely perfect!! I could not have imagined anything better. We had endless compliments on all of the food, both Brian's parents and my parents were thrilled with everything, and the staff was excellent and everything was set up as I had requested. I could not be happier and you were so easy and enjoyable to work with, and I will definitely recommend you to anyone!!! Thank you so much for everything!!!

Thanks so much! We so appreciated your flexibility as we were making our decision. We could not have done that if we had the wedding in DC with DC vendors. You all really showcased upper Midwest hospitality at its finest. We are still just raving about how well everything went!

Since I wasn't there for any setup, I don't have many first hand remarks other than - the food was awesome!!! Mary and our other East Coast guests LOVED the crab cakes! My side of the family loved the prime rib! I was told that someone told the man carving the meat that my dad was the father of the bride and he took out a new prime rib and cut the exact piece that my dad liked. It was such a nice touch. My parents both said the staff was wonderful to work with. I don't have any comments for improvements!

We are just so pleased with how things turned out!!!
